**REPUBLICAN LEADERS GLOOMY;
PAINED BY CAMPAIGN REVIEW****Hughes Campaign in West Flat Failure—T. R. Fails to
Arouse Enthusiasm—Republican Press in Eastern
Cities Sees Collapse of Wilson Opposition.**

New York, Oct. 22.—Gloom filled the headquarters of the Republican national committee today. Every one from Chairman Willcox down was depressed. Reports have come from the west and middle west that the Hughes campaign has been a failure and that President Wilson's popularity is growing by leaps and bounds. The Republicans have taken the management of the Ohio campaign out of the hands of the local men and will run it from national headquarters.

Roosevelt's failure to stir up Hughes sentiment has the Republican managers worried. Chairman Willcox has received many requests that he be taken off the stump, while from no place has there come a request that he make a second speech. The flat failure of his speech at Wilkesbarre Saturday night has proved disconcerting to the Republican managers who were playing their last card for the labor vote.

To add to the gloom, Fred C. Greiner, Republican leader of Buffalo, told Chairman Willcox the working men are for President Wilson's reelection almost unanimously, and that heroic treatment must be applied to save Hughes.

The hardest blow is the collapse of the Republican candidate's metropolitan newspapers' support. The New York Tribune, which has a long and unbroken record of Republicanism and which a few days ago felt compelled to disagree pointedly with Hughes' Lusitania speech, this morning published a political forecast which amounts to a virtual confession of the defeat of the Republican candi-

date. The forecast purports to be based upon confidential reports from every doubtful state received by one of the most prominent campaign managers. It gives Hughes only 284 votes, including Ohio's 24 and West Virginia's 8, which everyone knows are so safe for Wilson that, if Hughes must have them to win, his case is hopeless.

The New York Evening Post's story of the Republican campaign slump follows its editorial declaration last Saturday that Hughes "is a disappointment." The Post, which set out to be friendly to Hughes, is through with him.

The New York Evening Mail which is supporting Hughes, makes this interesting admission:

"Roosevelt is a thorn in the side of those campaign managers who are afraid of the German-American vote. Very largely on that account he has been shunted off on a speaking tour to territory where it is estimated he can do the least harm."

An interesting sidelight on the dilemma of the Republican press that is called upon to support a candidate without an issue is furnished by the fact that the Philadelphia Public Ledger's \$2,000 prize contest for the best editorial in support of each presidential candidate was won for the Wilson side by Ernest F. Boddington of the editorial staff of the Philadelphia North American, which is halfheartedly supporting Hughes.

The Leader today announced that 459 contestants urged President Wilson's retention in office, while only 329 editorials were submitted in favor of Mr. Hughes.

W. J. (JAKE) PARKER.

A successful business man who has created wealth for the farmers of Weber county presents his candidacy for the office of state senator in W. J. (Jake) Parker. Mr. Parker's business career in Weber county has made him so well known to the voters in this section that extended sketching of his career is almost unnecessary.

Born in Farmington, educated in the schools of Hooper and the University of Deseret, Mr. Parker began farming at an early age, and continued in that line of work for about 15 years before he started the small cannery at Syracuse which gave him initial insight into his present business. That cannery put up 35,000 cans of goods in a season, while the six factories now owned by Mr. Parker at Hooper, Roy, Riverdale, West Weber, Plain City and the Wasatch orchards in West Ogden now can from 7,200,000 to 8,400,000 cans of goods in a single season.

Recognition of Mr. Parker's success in his chosen line of work has resulted in his selection as president of the Utah Cannery association. He is also a director in the Utah National Bank. In addition to the activities above outlined, Mr. Parker has been engaged to some extent in the grazing industry and has a coal and mercantile business at Roy. His friends point to his wide and successful business experience as proof that Weber county will be fortunate if it selects him to represent it at the coming session of the state legislature, when many important and far-reaching matters are expected to come up.

**ERIE RAILROAD HEAD
PRAISES PRESIDENT****F. D. Underwood Denies That
Wilson Played Politics With
Adamson Eight-Hour Bill.**

Chicago, Oct. 22.—In an authorized interview, F. D. Underwood, president of the Erie railroad, has declared in favor of the re-election of President Wilson. Mr. Underwood said he fully endorsed the recent approval of the president's policies by Judge Samuel Lovett, chairman of the board of the Union Pacific railroad.

"I agree with all Judge Lovett stated, and possibly the interview can end with that," said Mr. Underwood, who is one of the country's big railroad chiefs.

According to a request to "go on," Mr. Underwood gave his reasons for thinking "that the administration of President Wilson has, on the whole, been successful and worthy of a further trial."

"For many years," he said, "the Democratic party was one of opposition, devoted to destructive attack and barren of constructive suggestion. Hungry for office, impatient of authority, it constituted a force that seemed certain to go to pieces whenever it tried to go forward."

Did Seemingly Impossible.

"With its accession to power some of us expected four years of futility. In place of which its accomplishments and actions have surprised its adversaries. The president has achieved the seemingly impossible."

"As to the statement that President Wilson played politics in the railroad negotiations for an eight-hour day by the brotherhoods in Washington I once stated, and now reaffirm, that my opinion is he used his best judgment in doing as he did. No one could fairly accuse him of playing politics, and while my views did not correspond with his, I concede that his motives were honest. He did not carry the burden of the brotherhoods or the claims of the people of the United States. His eminent fairness shown in the personnel of the commission that is to study the working of the experiment and his appointment of the committee on national defense, which, with but one exception, could not be improved on."

When asked his opinion of the eight-hour law, Mr. Underwood said: "What matters how I or anyone else feels? The eight-hour law is past discussion. The Republican party, as well as the Democratic party, advocate it. Whether we like it or not, it is here, to be lived up to so long as it is the law of the land."
